The Cholera Continues to Reep Its Vic-

Palermo.

SIMPLY FRIGHTFUL.

The Ravages of Cholera De-

scribed.

By Cable to THE SENTINEL.

ROME, Sept. 21.—Reports from Palermo regarding the progress of cholera shows a distressing state of affairs.

Thirty thousand people have fled the city, all the shops are closed and the streets are almost deserted. There is

great scarcity of food and water and the epidemic is increasing with frightful rapidity. The sanitary officials are

attacked by the people every time they attempt to disinfect houses where the

disease exists and meet with difficulty in carrying on their work.

Rome, Sept. 21.—King Humbert has sent \$10,000 for the suffering people at

Palermo.

AN OVERFLOW

Throughout the Southern Part of

Spain.

By Telegraph to THE SENTINEL.

MADRID, Sept. 21.—Disastrous rains have prevailed during the past twenty-

four hours in the southeast part of Spain, causing immense destruction of

property and the loss of many lives, houses, trees and dead animals are being

carried out to see by the raging floods.

Turkey Gives up Roumelia.

By Cable to THE SENTINEL.

PHILIPPOPOLIS, Sept. 21.—Agents of all the great powers, signatory to the

treaty of Berlin, have sent dispatches to their respective governments approving

the movement of Friday last. It is rumored at various consulates that the

ambassadors at Constantinople have succeeded in dissuading the Porte from sending

the Turkish troops to Eastern Roumelia to regain possession of the country.

LONDON, Sept. 21.—There was a heavy fall to-day in international securities,

caused by the events of the past few days in eastern Roumelia. The average

fall in Turkish securities was from two to five per cent; in the French three per

cent, rentes one per cent, and in Russian one per cent.

The Russian press is jubilant over the

affair in Roumelia. The French press

hopes it will unite France and England.

LONDON, Sept. 19.—The populace of Philippopolis, the capital of eastern

Roumelia, almost to a man rose in rebellion yesterday, seized the governor

general, deposed the government and proclaimed union with Bulgaria. A

provisional government was established. The revolt was so well planned

that no disorder or bloodshed occurred, everybody being in sympathy

with the movement except the government officials. Foreigners in the

city are perfectly safe. Immediately after the organization of the provisional

government, the militia were sworn in, taking the oath of allegiance to

Prince Alexander of Bulgaria. It is generally believed in diplomatic circles,

that Russia arranged the programme of rising and suggested union

with Bulgaria. No definite statement can now be made as to what action

the signatory powers to the treaty of Berlin will take respecting

the matter. Eastern Roumelia was created by the congress of Berlin in

1878 and was given an automatic government, though forming an integral

part of the Turkish empire. The governor general was appointed by the

Porte, subject to the approval of the treaty powers.

The American Methodists mission

ary Johnson, has arrived in London, on his return from St. Paul, De-Loan-

daus. He states that the American methodists mission there, are all well

and happy and says that the reports recently circulated, that the mission

had suffered by deaths from starvation and disease are false, and were

based solely on the fact that Charles Miller of Baltimore had died

from illness. Mr. Miller, Mr. Johnson

says, might have recovered but for his persistence in refusing to take

proper medicine, which he did for the person that he trusted in the Lord

to help him through. Mr. Johnson declares that the mission has plenty of

wholesome food and has lost no member but Mr. Miller.

PHILIPPOPOLIS, September, 19.—The insurgents in Eastern Roumelia,

acting under the orders of the provisional government, have occupied all

the strategic points on the Turkish frontier, have blown up all bridges

which would be likely to be used by any force advancing from Turkey,

to the relief of deposed government, and destroyed the telegraph wires leading

into Turkey.

PARIS, September 19.—The circulation of Le Petit Journal in Alsace, Lorraine, has been prohibited by the

German government.

ROME, September 19.—The Directoire states that during the past twenty-

four hours there were 340 new cases of cholera and 160 deaths in Palermo.

week ending September 19th was \$664,443; for the corresponding period last

year \$442,094.

WASHINGTON, D. C., Sept. 19.—A severe cyclone is now central in the west

gulf. The signal service observer at Indianapolis reports at 11:20 p. m. yesterday:

"No abatement of the storm. The same condition of weather raged at last report, except that the water was rising

and covering the flats in the rear of the town. At the same rate that it has risen

the water will be fully in the main streets of the city to-morrow morning."

SITTING DOWN ON THE CHICAGO GANG.

WASHINGTON, D. C., September 19.—The President has appointed Anthony

F. Seeberger collector of customs at Chicago. The appointment was made

on the 15, inst, but the public and nouncement of it was withheld until

to-day Mr. Seeberger is a prominent merchant of Chicago, where he has been

engaged in an extensive hardware business, for many years. He is a man

of wealth and high social standing and while always recognized as a consistent

Democrat, has never been prominent in political affairs.

JANESVILLE, D. T., Sept. 21.—The devastation by prairie fires from Fargo to

Bismarck far surpasses that of any previous year. Hundreds of wheat crops

were swept out of existence Saturday and Sunday. The amount of wheat

burned in north Dakota during the past week is immense. It is estimated the

entire crops of one hundred farms between here and Bismarck have been

destroyed.

WOMEN

BROWN'S

IRON BITTERS

THE BEST TONIC

This medicine combines iron with pure vegetable tonics, and is invaluable for Diseases peculiar to Women, and all who lead sedentary lives. It Enriches and Purifies the Blood, Stimulates the Appetite, Strengthens the Muscles and Nerves—in fact, thoroughly invigorates. Clears the complexion, and makes the skin smooth. It does not blacken the teeth, cause headache, or produce constipation—all other iron medicines do.

Mrs. ELIZABETH BAIRD, 74 Farwell Ave., Milwaukee, Wis., says, under date of Dec. 20th, 1884:

"I have used Brown's Iron Bitters, and it has been more than a doctor to me, having cured me of the weakness I have in life. Also cured me of Liver Complaint, and now my complexion is clear and good. Has been beneficial to my children."

Genuine has above trade mark and crossed red lines on wrapper. Take no other. Made only by BROWN CHEMICAL CO., BALTIMORE, MD. LADIES' HAND BOOK—useful and attractive, containing list of prizes for recipes, information about coins, etc., given away by all dealers in medicine, or mailed to any address on receipt of 2c. stamp.

GRAND MOTHER

MISHLER'S HERB BITTERS.

Used herbs in doctoring the family, and her simple remedies DID CURE in most cases. Without the use of herbs, medical science would be powerless; and yet the tendency of the times is to neglect the best of all remedies for those powerful medicines that seriously injure the system.

is a combination of valuable herbs, carefully compounded from the formula of a regular Physician, who used this prescription largely in his private practice with great success. It is not a drink, but a medicine used by many physicians.

It is indicated in cases of BILIOUSNESS, KIDNEY AND LIVER COMPLAINTS, NERVOUS EXHAUSTION, WEAKNESS, INDIGESTION, etc.; and while curing will not hurt the system.

Mr. C. J. Rhodes, a well-known iron man of Safe Harbor, Pa., writes:

"My son was completely prostrated by fever and ague. Quinine and bark did him no good. I then sent for Mischler's Herb Bitters and in a short time the boy was quite well."

"E. A. Schellentrager, Druggist, 717 St. Clair Street, Cleveland, O., writes:

"Your Bitters, I can say, and do say, are prescribed by some of the oldest and most prominent physicians in our city."

OFFICIAL PAPER COUNTY AND CITY.

MONDAY, SEPT. 21, 1885.

The Samuel J. Randall club, of Pittsburgh, is going to Ohio to help out the Hoadly boom by parades.

Among the president's callers last week was Gov. St. John, of Kansas, the late prohibition candidate for president.

GOVERNOR HOADLY continues to march to victory in the face of John Sherman's "bloody shirt" campaign. It may be that people over in Ohio think "honest John" is joking when he relates his war ghost story.

There is a business boom all over the country. It is not phenomenal, but it is healthy and has come to stay. Every branch of trade in Fort Wayne is picking up and farmers have excellent wheat and corn crops. Our merchants are in the east, have been there, or are going, and all of them will have as varied and fine a display of goods as any houses in the west can show.

CHEAP EXCURSIONS.

Just at this season the city is flooded with circulars announcing cheap excursions to Chicago, Cincinnati, Cleveland or Buffalo. The SENTINEL desires to say to the people of Fort Wayne that these trips drain their home of money and tend to stifle the present business boom. They are generally encouraged by outside merchants, who want to rid their stores of unseasonable goods and wares. The person who buys abroad is an enemy of Fort Wayne, because there is not an article made that cannot be purchased right here as cheap and as good as any place in the union. A Chicago liable does not increase the value of anything, neither does the label of any other city. People may go abroad if they choose, but THE SENTINEL insists that any man, who loves his home and desires to see his neighbors thrive, should not permit a penny of his earnings to go for purchases abroad. He robs himself to enrich a Chicago or Cincinnati shark, whose delight it is to deceive, feeling it is their only opportunity to "get a crack at their country cousin," as the Hoozier visitor is styled.

RETURN OF A BATTLE FLAG.

Governor Gray has designated Captain Milton Bell, of Kokomo, to receive the colors of the Fifty-seventh Indiana regiment on the morning of September 23, at Kokomo. The circumstances are these: The flag was captured at the battle of Franklin, Tenn., by Corporal Crook of the Thirteenth Tennessee (confederate). At a reunion at Cleburne, Tex., recently the flag was delivered over to a committee of four, appointed to convey it to the original owners. One of these four is the official representative of the state of Texas. David N. Foster, department commander of the G. A. R., thought it a proper thing to receive the delegation with official courtesy, and at his suggestion the governor has made the appointment mentioned above.

Speaking of this event the Texas Farm and Ranch says: "To those that yearn to see sectional strife laid aside in our common country, it is gratifying to note the little episodes the reunions north and south so often produce. At the late Fort Worth reunion of ex-confederates, Corporal Crook, formerly of a Texas regiment, presented to the G. A. R. Department Commander Colonel Wylie, of this place, the battle-flag he captured from the 57th Indiana regiment. Col. Wylie has just received a letter of acknowledgement from Department Commander D. N. Foster of Indiana, who says that the return and presentation of the flag will be one of the most pleasant and conspicuous features incident to the Indiana reunion on the 22d and 23d instant. Corporal Crook, who resides near Cleburne, this state, has been cordially invited to be present at the interesting occasion. Verily, it can be said, if left to the courageous, patriotic breasts that stood before and received the shot and shell of the late war, sectionalism would long since be resting calmly in the oblivious shades of forgotten days. Cleburne will send a delegate to represent

that city on the occasion, as will Dallas. Governor Ireland will also appoint a delegate to attend the interesting ceremonies. Indiana and Texas will on this occasion join hands in fraternal feeling."

The famous old banner is badly riddled with bullets, and through the starry portion a cannon ball made a large hole just before the color sergeant was shot down. About the middle of the inner edge the flag is thoroughly stained with blood for a space of ten inches where the sergeant fell on it when he was shot down, and Corporal Crook rushed up and carried the colors off as a trophy. At the Kokomo reunion the Texas delegation, now en route there, is to be given the colors of the famous Terry's Texas rangers, captured by the 57th Indiana at Rome, Ga., to be brought back and presented to the society of the surviving members of that command.

The funny man in Puck wrote that "Ella Wheeler Wilcox and her husband did not live happily together. It must be hard to have your wife constantly springing her poetry on you before turning it loose on the public." Mrs. Wilcox wrote a dignified rejoinder to this, closing with the following: "It does seem to me that in my private life, which is certainly quiet and respectable, I am entitled to the courtesy due any lady from American journalists. I know that the majority of public women, whether in literature, the drama, or other professions, are subjected to the same insults, and I think I voice the feelings of all in this letter. It seems to me it is time some manly journalist began a crusade against the license of the press. Nowhere save in our vaunted republic are women subjected to this most unpleasant treatment—as cruel as it is uncalled for. I feel that an apology is due us all." And the editor apologized handsomely.

Nothing Made in Vain.

We are told that nothing was made in vain; but what can be said of the fashionable girl of the period? Isn't she maidenly? Hood's Sarsaparilla is made in Lowell, Mass., where there are more bottles of it sold than of any other sarsaparilla or blood purifier. And it is never taken in vain. It purifies the blood, strengthens the system, and gives new life and vigor to the entire body. 100 doses \$1.

Henry V. Lucas, manager of the St. Louis base ball club, is reported to have lost \$40,000 this season.

A household remedy. That is what Mischler's Herb Bitters has become since its curative properties have been fully established. William Scott, of Newcastle Pa., who was formerly troubled with chronic diarrhoea and kidney troubles, thought it worth while to give Mischler's Herb Bitters a trial. His bowels are now regular, and his kidneys quite free from disease. He now keeps the Bitters constantly in the house.

A professor in a medical college once said to his class "put your hand in a vice, turn the screw until the pain is all you can bear, and that's rheumatism; turn the screw once more, and that's neuralgia;—and gentlemen, the medical profession knows no cure for either." That was before the discovery of AZULOPHOS, which does and will cure of both rheumatism and neuralgia, and many physicians use it regularly—frankly admitting that they can prescribe nothing else so effective.

Many persons have tried many so-called remedies, without benefit, that they have no faith to try more, but it is worth while to try AZULOPHOS. If you have any doubts as to its value write for names of parties in your own State who have been cured by its use.

Ask your druggist for AZULOPHOS. If you cannot get it of him we will send it express paid on receipt of regular price—\$1.00 per bottle. We prefer that you buy it from your druggist, but if he hasn't it do not be persuaded to try something else, but order at once from us as directed.

Frightful Case

Of a Colored Man!

I contracted a fearful case of blood poison in 1883. I was treated by some of the best physicians in Atlanta. They used the old remedies of mercury and potash, which brought on rheumatism and impaired my digestive organs. Every joint in me was swollen and full of pain. I was in a horrible condition; when I had been given up to die, my physicians, who had seen the workings of the medicine in other cases, thought it would be a splendid time to test the virtues of Swift's Specific. When I commenced taking S. S. S. the physician said I could not live two weeks under the ordinary treatment. He commenced to give me the medicine strictly according to directions, which I took for several months. Took nothing else, and commenced to improve from the first. Occasionally I would have a backward from impudence. Soon rheumatism left me, my appetite became all right, and the ulcers, which the doctor said were the most frightful he had ever seen, began to heal, and by the first of October, 1884, I was a well man again. I am stronger now than I ever was before, and weigh more. I have not failed to report for duty since that time, being engaged in the oil warehouse of Ches-Carley Company. I have been, and still am, doing some of the hardest work any man ever did, and am ready to answer any question that may be asked concerning this cure. Swift's Specific has saved me from an early grave.

LEM McCLENDON.
Atlanta, Ga., April 18, 1885.

Lem McClendon has been in the employ of the Ches-Carley Company for some years, and I know the above statements to be true. At the time he began taking Swift's Specific he was in a horrible condition, and at my solicitation his treatment with S. S. S. was undertaken by a physician after several others had declared his case to be hopelessly incurable. He took nothing but S. S. S., and has been as sound as a new dollar for several months. I regard his cure almost miraculous.

W. B. CHESBY, Manager.
Ches-Carley Co., Atlanta Division.
Atlanta, Ga., April 18, 1885.

CAUTION!

Consumers should not confuse our Specific with the numerous imitations, substitutes, potash and mercury mixtures, which are gotten up to sell, not on their merit, but on the merit of our remedy. An imitation is always a fraud and a cheat, and they thrive only as they can steal from the article imitated.

For sale by all druggists. Treatise on blood and skin disease mailed free.

calls to mind the necessity of a revision
of the Fort Wayne ordinances.

Rt. Rev. Bishop Dwenger, in a letter
received here this morning, writes under
date of September 5th, that he expected
to be able to leave Rome about the
eleventh or possibly not until the
twentieth. From this it is assumed that
the Associated Press dispatch stating he
left Rome on the thirteenth is correct.
The bishop, it may now be conjectured,
will reach Fort Wayne about September
30th or October 1st.

The county commissioners have ap-
proved the new city limits ordinance
as it was passed by the council. Hon.
J. K. Edgerton's remonstrance did not
avail. This matter is quite complimen-
tary to City Attorney Colerick who made a
brilliant plea before the commissioners.

Charley Beebe says he was not ar-
rested or fined for being in a gambling
room, as published. His name appeared
in the affidavit before the mayor. If the
police let him out of the room and were
afraid to arrest him again it is not our
business. THE SENTINEL looks to the
records and will hereafter publish the
name of every person arrested in these
gaming halls, inasmuch as the sporting
fraternity have seen fit to threaten a
member of THE SENTINEL staff.

A grand shooting tournament begins
at the fair grounds to-morrow and con-
tinues three days. The tournament is
under the management of H. J. Trent-
man and this fact stamps it as an honor-
able affair, making it different from the
so called tournaments held about the
state. A citizens' purse will be shot for
Thursday and altogether the occasion
will develop good work. A small ad-
mission fee of ten cents will be collected
from men. Ladies are admitted free.

"OVER THE HILLS."
An Unfortunate Lass Seeks the
Poor House to Hide Her
Shame.

Mary Park, a rather handsome young
woman, sought Trustee Gaffney to-day
and pleaded for a refuge in the poor
house. She is but twenty years of age
and related that she was courted by John
Wagner, a Pittsburg brakeman. He is
the author of her downfall. Recently
she has lived with Mr. Hathaway, in Ne-
braska. She will soon be a mamma and
can no longer conceal her misfortune.
She does not appear anxious to prose-
cute Wagner, but is inclined to still look
sweet on his advances. "He may yet
marry me" spoke the girl, as Mr. Gaff-
ney handed her a card of admission to
the poor house. She departed to saunter
"over the hills."

ANOTHER BURGLARY.
Fred Beach's Second Hand Store
Rifted of \$60 Worth of
Jewels.

Fred Beach keeps a second hand store
on the east side of Calhoun street, be-
tween Washington and Jefferson street.
His store building is old and insecure.
Yesterday thieves walked into it and at
their leisure carted away gold rings, shirt
studs, pocket knives and other articles
that accumulate money. So varied and
extensive is Mr. Beach's stock that he
cannot itemize his loss, but is positive
that between \$60 and \$100 worth of ar-
ticles were stolen from him. He gave a
bunched list of them to Sheriff Nelson,
and that officer will announce their theft.
This job was committed by local talent,
probably boys, who sized up the insecure
enclosure Mr. Beach stores his goods in.

ALMOST FATAL.
Mrs. Calbetzar the Victim of a
Druggists' Awful Error.

Mrs. Calbetzar, who lives at No. 277
East Wayne street, was taken ill yester-
day and a Dr. Bartlett prescribed for
her. The paper was taken to a city
druggist, now nameless, and instead of
the restorative prescribed, sixteen grains
of opium were given the messenger.
Mrs. Calbetzar took the drug at inter-
vals until it was all swallowed. She re-
turned to her room and later was discov-
ered on the floor in spasms. Doctors
Greenewald and McCausland worked all
night with the lady and to-day pronounced
her out of danger. The druggist,
whose mistake nearly consigned her to
the grave, is almost crazed.

STOLE A STEED.
Horse Thieves Drive a Horse
from the Stable of Joe
Manier.

A telegram to Sheriff Nelson yesterday
morning hastily summoned him to
Arcola, where there was much conster-
nation. Saturday night thieves stole a
horse from Joe Manier, a well known
resident of the village. Mr. Nelson and
Deputy Clausmeier inquired into the
matter and followed the trail with the
sheriff's spanking team, but without suc-
cess. Telegrams were also sent out and
postal cards followed. It is difficult for
a thief to get out of that part of the
county, but with eight or nine hours
start he has the advantage of his fol-
lowers.

An old phaeton buggy was taken with
the horse and in this vehicle the thieves
rode. Its wheels wriggled considerably
and its trail the officers and others fol-
lowed this morning towards this city.
This morning the horse was discovered
going home and two hours later the
phaeton was discovered in a corn field
near the residence of John Orff, just
west of the city. The horse and vehicle
were not taken from Joe Manier, but
from his father-in-law, A. Corbet, in
Aboit township. The outfit belonged
to Mr. V. Corbet and a reward of \$50 had
already been offered for the stolen horse
and phaeton. It is presumed some fel-
low wanted a conveyance to this city
and took it.

East Bound Freight.
The shipments of flour, grain and pro-
visions from Chicago to eastern through
stations by the pool lines during the
week ending Saturday, Sept. 19, amount-
ed to 52,161 tons, against 48,161 tons
during the preceding week, an increase
of 4,000 tons. The shipments of grain
were particularly heavy, aggregating
35,308 tons. The reason for the increase
of tonnage is alleged to be the exception-
ally low rates now prevailing. It is
difficult to find out just what rates are,
but it is considered safe to say that the
bulk of both grain and provisions carried
last week went on the basis of a 10-cent
rate to New York. The Nickel Plate
road carried 4,604 tons. The Pittsburg
road carried 8,133 tons. The Michigan
Central and Lake Shore roads carried
more freight than the Pittsburg road.

maining unclaimed for in the Fort Wayne,

Wabash Financial Statement.
The Wabash receivers have filed in the
United States circuit court a report of
the receipts and expenditures from June
1 to Aug. 31. The totals are as follows:
Balance overdraft of May 31, \$126,769;
receipts June 1 to Aug. 31, \$4,569,043;
total, \$4,442,274. Total disbursements
from June 1 to Aug. 31, \$4,416,044; bal-
ance cash on hand Aug. 31, \$26,229.
The receipts from station agents on
freight and ticket account were \$3,747,
535. The receivers' certificate issued
under the order of the court and applied
in payment of sundry vouchers amount-
ed to \$235,000.

Death List.
Following are the deaths for the week:
Patrick O'Grady, aged 84 years, old age;
Henry E. Corneille, 2 months, cholera
infantum; Wm. Green, 68 years, paraly-
sis; Anthony Eysen, 28 years, inflam-
mation of the bowels; Nora O'Brien, 40
years, malarial fever; child of Wm. Nor-
veck, 1 day, debility; George Koehl, 25
days, cholera infantum; child of Leopold
Krauss, 5 years, malarial fever; John
Slagle, 32 years, typhoid fever; Maud
Schafer, 3 years, scarlet fever; Mary
Nagel, 70 years, dropsy; Fred A. Roep-
ke, 4 months, debility; Adam Kick, 53
years, apoplexy.

The New Bridge Law.
The new bridge law requires the town-
ship to pay for all bridges costing \$75
and under, and for bridges costing more
than that amount, the residue is to be
paid out of the county treasury. As the
bridges must be built under the direc-
tion of the commissioners, they will set-
tle for them and pay the contractor out
of the county fund, and when the trust-
ee draws his annual settlement the
bridge amount will be deducted from the
proper funds and paid into the county
funds.

Death of J. D. Stopher.
J. D. Stopher, one of the leading and
best citizens of Maysville, this county,

died quite suddenly last night. Mr.
Stopher was an excellent gentleman and
his death is universally regretted. At
his native town he was greatly liked and
his fine home was always open to his
friends. The news of the untimely
end of the man was brought here by
Frank K. Cosgrove, his former fellow
townsman.

The deceased was a lieutenant of com-
pany D., 88th Indiana Volunteers, and a
gallant soldier.

MUST BE MORAL.
The Bagnio of Georgie Warner
Raided by a Posse of Con-
stables.

Saturday night a posse of constables,
detailed by the Bloomingdale reforma-
tion society, swooped down on the resort
kept by Georgie Warner, on the north
side. The mistress and three erring
sisters were arrested, as were also two
men who toyed with them. The girls
and their friends were ushered
into Squire Chase's court, in Wash-
ington township, and that august
magistrate and apostle of morality fined
the party. The girls gave up good
money and so did one of the men. A
fellow named Harding was looked up,
but he was bailed out to-day. Justice
Chase read the riot act to Miss Georgie
and with Caesarian pomp banished her
from the classic shades of Bloomingdale.
She says she will fold her tent. Let the
good work go right on.

It now transpires that Deppler and
Rhinehart were the fellows who raided
Miss Warner's harem. Justice Chase
has empowered the fellows as special
constables. They bring all cases before
him and are given fees.

Accident to the Adjutant General.
Adjutant General Koontz, after the
sham battle at Lebanon Saturday, met
with a painful accident. His horse
stumbled and fell. General Koontz
struck the ground violently, receiving
bruises on the nose and head and having
his under lip cut open. The horse rolled
upon the general's leg, severely injuring
that member also.

The Sabbath Fire.
The department was summoned
yesterday afternoon to the rear of W. H.
Miller's grocery store where an out house
blazed up. A stream of water quenched
the fire, but at 11 o'clock last night it
was fired again and a second time the
firemen smothered it. A few boys in
the neighborhood did the work. The
damage will not exceed \$10.

A Neat Display.
One of the prettiest displays made at
the fair grounds and so favorably spoken
of was that of our neighbor plumber,
George R. Bowen. He exhibited every-
thing in plumbers' and gas fitters' goods
of the latest styles and improvement. At
his place of business, No. 110 Calhoun
street, opposite THE SENTINEL office,
can also be found a full stock of every
thing in his line, including fine chande-
liers, had painted, etched, plain and
burnt, and cut globes. Estimates fur-
nished for all kinds of gas fitting,
plumbing and sewerage. All work war-
ranted.

A New Business.
The Fort Wayne Co-operative Grain
and Seed association, referred to last
Friday as having formed under the state
law, to-day filed articles of incorporation
with County Recorder Heller. The pro-
motors of the enterprise are George
Holmes, Martin Bruer and W. McCul-
loch, of Allen county, Ind., and James
Marshall, Thomas Edgington and M. L.
Baker, of Ohio. Their object is to im-
prove seeds, but their speciality, is said
to be Red Line wheat.

I took my first dose of Athlophoros
for rheumatism at about six o'clock and
in less than two hours my pain was very
much reduced, and I felt comfortable.

of the Louisville & Jeffersonville Ferry
Co., Jeffersonville, Ind.

NOTICE OF DISSOLUTION OF
PARTNERSHIP.
The firm of Woodworth & Bond, dental
dent has this day been dissolved by mutual
consent. Hugh M. Bond assumes all liabil-
ities and will continue the business under
the name of Hugh M. Bond & Co.
L. E. WOODWORTH.
HUGH M. BOND.
August 20, 1885. -frl-91

THE Rev. Dr. Burchard wanders
around Saratoga like a ghost. The
old gentleman, although he looks very
calm and serene, as if he had the clear-
est of clean conscience, yet cannot be
very comfortable. He is one of the
most notorious men now living. Where-
ever he goes he is followed by the wink
and snicker of some one who regards
Burchard's existence as a huge joke.
"There he goes!" "That's the man!"
"That is the man who smashed Blaine!"
"That is Grover Cleveland's best
friend!" are the constant exclamations
uttered in his hearing. He looks very
patient under all this fire, but he must
be very much annoyed.

The first remains of a man ever
found in a fossil condition were recently
discovered near the City of Mexico.
The scientists find it impossible to
name the geological age of the remains,
and it is not likely that those who wish
to amplify the antiquity of the human
race will be gratified. The cases of
the skull of Calaveras and the bones
found at Natchez forbid any positive
assumption as to the recent discovery.

The Porte Will not Send His Troops to the Seceding Country Now.

The Cholera Continues to Keep Its Victims—Great Distress in Palermo.

SIMPLY FRIGHTFUL.

The Ravages of Cholera Described.

By Cable to THE SENTINEL.
Rome, Sept. 21.—Reports from Palermo regarding the progress of cholera shows a distressing state of affairs. Thirty thousand people have fled the city, all the shops are closed and the streets are almost deserted. There is great scarcity of food and water and the epidemic is increasing with frightful rapidity. The sanitary officials are attacked by the people every time they attempt to disinfect houses where the disease exists and meet with difficulty in carrying on their work.

Rome, Sept. 21.—King Humbert has sent \$10,000 for the suffering people at Palermo.

AN OVERFLOW

Throughout the Southern Part of Spain.

By Telegraph to THE SENTINEL.

Turkey Gives up Roumelia.

By Cable to THE SENTINEL.
PHILIPPOPOULIS, Sept. 21.—Agents of all the great powers, signatory to the treaty of Berlin, have sent dispatches to their respective governments approving the movement of Friday last. It is rumored at various consulates that the ambassadors at Constantinople have succeeded in dissuading the Porte from sending the Turkish troops to Eastern Roumelia to regain possession of the country.

London, Sept. 21.—There was a heavy fall to-day in international securities, caused by the events of the past few days in eastern Roumelia. The average fall in Turkish securities was from two to five per cent; in the French three per cent, and in Russian one per cent.

The Russian press is jubilant over the affair in Roumelia. The French press hopes it will unite France and England.

London, Sept. 19.—The population of Philippopolis, the capital of eastern Roumelia, almost to a man rose in rebellion yesterday, seized the governor general, deposed the government and proclaimed union with Bulgaria. A provisional government was established. The revolt was so well planned that no disorder or bloodshed occurred, everybody being in sympathy with the movement except the government officials. Foreigners in the city are perfectly safe. Immediately after the organization of the provisional government, the militia were sworn in, taking the oath of allegiance to Prince Alexander of Bulgaria. It is generally believed in diplomatic circles that Russia arranged the programme of rising and suggested union with Bulgaria. No definite statement can now be made as to what action the signatory powers to the treaty of Berlin will take respecting the matter. Eastern Roumelia was created by the congress of Berlin in 1878 and was given an automatic government, though forming an integral part of the Turkish empire. The governor general was appointed by the Porte, subject to the approval of the treaty powers.

The American Methodist mission, Mr. Johnson, has arrived in London, on his return from St. Paul, De-Landau. He states that the American Methodist mission there are all well and happy and says that the reports recently circulated, that the mission had suffered by deaths from starvation and disease are false, and were based solely on the fact that Charles Miller of Baltimore had died

from illness. Mr. Miller, Mr. Johnson says, might have recovered but for his persistence in refusing to take proper medicine, which he did for the reason that he trusted in the Lord to help him through. Mr. Johnson declares that the mission had plenty of wholesome food and has lost a member but Mr. Miller.

PHILIPPOPOULIS, September, 19.—The insurgents in Eastern Roumelia, acting under the orders of the provisional government, have occupied all the strategic points on the Turkish frontier, have blown up all bridges which would be likely to be used by any force advancing from Turkey, to the relief of deposed government, and destroyed the telegraph wires leading into Turkey.

PARIS, September 19.—The circulation of Le Petit Journal in Alsace, Lorraine, has been prohibited by the German government.

ROME, September 19.—The Dittorou states that during the past twenty-four hours there were 340 new cases of cholera and 160 deaths in Palermo.

Fires Relighted.

By Telegraph to THE SENTINEL.
CLEVELAND, September 19.—Twelve weeks ago, the employees of the Cleveland Rolling Mill company, struck on account of a reduction in wages, the amount of which was not stated. There was more suppressed excitement in the iron ward to-day, than at any time since the trouble was inaugurated. Early in the morning a gang of the fourteenth ward men, principally Poles and Bohemians, gathered on Hire street, ready to intercept those who were willing to go to work. There has been a break in the ranks during the past few days and shortly after 7 o'clock a large number of men began making their way toward the mill. There were nearly two hundred of them and when they reached the gates they met with no opposition, went in and were put to work, cleaning the yards and repairing the machinery, etc. In a short time the fires were started under a number of boilers, and more smoke hung over Newburg than has been seen since the first day of June. During the forenoon steam was generated in the vail and blooming mills and the ponderous wheels of the engines commenced to revolve after their prolonged idleness.

DETROIT, Mich., Sept. 19. About one year ago, the Pacific express company was robbed at Peru, Indiana, the express messenger being gagged and valuable taken. A reward of \$1,500, was offered for the arrest and conviction of the robbers. Detective Pat O'Neil, of this city, was employed on the case and succeeded in bringing to punishment the perpetrators.

Payment of the reward having been refused, E. F. Connelly to-day brings suit for Detective O'Neil, against the Pacific Express company for \$2,000 damages, being the reward with interest and expenses.

NEW YORK, September 19.—The announcement is made that J. M. Hill, of Chicago, the manager of the Union Square Theatre of this city, has sold to Frank Siddall, of Philadelphia, for \$50,000, his team, Westmont and Lorea.

THE RED FLAG.

TAKE SIMMONS LIVER REGULATOR

For All Diseases of the
Liver, Kidneys, Stomach and Spleen.

This purely vegetable preparation, now so celebrated as a Family Medicine, originated in the South in 1828. It acts gently on the bowels and kidneys, and corrects the action of the liver, and is, therefore, the best preparatory medicine for the sick. It may prove to be the common disease it will, undoubtedly, by any other medicine, effect a speedy cure.

The Regulator is safe to administer in any condition of the system, and under no circumstances can it do harm. It will invigorate the system, and is so invigorating, however, that it is not necessary to use it in large doses to produce the desired effect. It will, in fact, dislodge the system, and generally tone up the system. The dose is small, and unobtrusive, and its action unobscured.

No loss of time, no interruption of business while taking the Regulator.

Children complaining of Colic, Headache, or Sick Stomach, a teaspoonful or more will give relief.

If taken occasionally by patients exposed to MALARIA, it will expel the poison and protect them from attack.

A PHYSICIAN'S OPINION.
There has been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively remove the liver, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system. EPSS'S COCOA

BEVERAGE.

"By a thorough knowledge of the natural laws which govern the human system, and by a careful application of the fine properties of our selected cocoa, Mr. Epss has prepared a breakfast food which is a delicately flavored beverage which may be taken at any time of the day. It is a healthy and delicious use of such articles of diet that a stout constitution may be gradually built up until strong enough to resist every ill arising from the season. Hundreds of public men are found here around us ready to attest wherever there is a weak point, how they may escape many a fatal ailment by keeping their system well fortified with pure food and a properly nourished frame."

The Daily Sentinel. TEXAS SKETCHES.

BY ALICE E. HARRIS

Dempsey and Smoot, two delapidated old hags, sat in the shade of Lackitt's stable in San Antonio, and strove for the mastery in mendacity. Dempsey felt a little sore because Smoot's buffalo story, which has been published in Texas Skiffs, was somewhat more stupendous than anything he had been able to trump up.

"Did I ever tell you about that smart dog I owned before the war?" asked Dempsey.

"Not that I know of. Did you own a dog before the war?"

"I should say so. I owned three packs of fox hounds before the war. I was a rich man in them days. I owned five or six plantations, with three or four hundred niggers on each plantation. I was elected to Congress a time or two, but I refused to serve," said Dempsey.

"Yes, that must have been about the time I was traveling around over Europe with the Prince of Wales and them sort of fellows. But what about the dog?" said Smoot, placing his fattened apology for a straw hat on his head.

"Nothin', except I paid a thousand dollars in gold for him. He used to sit at the same table with me. I had a plate for him at the table. Well, one day the nigger forgot to put his plate on the table for him, so what do you think that dog did?"

"He goes out and tells the nigger to put a plate and a napkin on the table for him?"

"No. He was the most human-like dog I ever knew, but he couldn't talk plain—no real plain."

"Well, what did he do?"

"He went out into the garden and picked a forget-me-not flower, and brought it to me, as much to remind me not to forget givin' him his dinner."

and Dempsey heaved a great sigh, as if he had relieved his mind of something.

Having got off this stupendous lie, Dempsey tilted back his chair and smoked in silence, evidently under the impression that he had stamped Smoot. He was mistaken. Nobody could ever outlie Smoot if the latter was given time to collect his thoughts.

"I've owned just such dogs in my time, millions of 'em," said Smoot. "I remember one dog I had when I had a sheep ranch in Frio county. I had planted a little patch in turnips and cabbages, and every night the jack-rabbits would come and eat up them vegetables. One day that dog heard me say that I wished all the jack-rabbits was in the hot place. I wasn't talkin' to the dog, but he overheard what I said, and he understood it, too."

"Are you sure of it?"

"You bet I am."

"Some dogs know what you are thinking about, even if they don't say nothing," remarked Dempsey, evidently trying to bolster up his own dog story.

"Well, the dog went out, and in about half an hour he came with a big jack-rabbit in his jaw."

"Was he a greyhound?" asked Dempsey.

"No, he was an ordinary bench-legged yellow dog. He was a really sort of a dog and we called him Damocamp."

"Maybe the rabbit was sick?"

"I reckon not, unless all the rabbits was sick, for Damocamp brought in five or six rabbits every day."

"Maybe he made a fox trap and set it for 'em?"

"The dog didn't tell me how he did it, but I watched him. You know rabbits is sociable, and if one rabbit sees another rabbit, he goes right up to him and rubs noses like."

"Yes, I know that. I've seen 'em shake hands lots of times," said Dempsey.

"Well, Damocamp sat down behind a wood or a bush and actually held up his hind legs above his head. Pretty soon a jack-rabbit, seeing the legs sticking up, thought they were the ears of another jack rabbit and came right up to Damocamp, who grabbed him up and trotted off with him."

"I can't say that till just now; you will have to wait a little for the money."

"All right, sir," cheerfully responded the boy, as he seated himself, and unfolded the copy of the morning paper.

"There's the orders of the governor."

"What are the orders of the governor?" demanded the gentleman, sternly.

"I'm to wait for the money."

THE NEW CUSTOMS OFFICERS

Edward L. Hedden, who succeeds William H. Robertson as Collector of the Port of New York, was born in this

E. L. HEDDEN.

city in 1828, and from 1859 was connected with the shipping house of Wetmore, Cryder & Co., until its dissolution last year. For thirty-five years Mr. Hedden had full charge of the Custom House business of Wetmore, Cryder & Co., of Front street. The house has a large China and Japan trade, having a branch house at Shanghai, whence are drawn the various products of the Asiatic coast. It is at Shanghai that market values for these products are fixed by the European and American colonists settled there. Mr. Hedden, however, has been further north than Shanghai, going at one time as far as Tientsin, which is eight hundred miles north of Shanghai, and where the United States government now has a resident consul, constituting Tientsin, mostly populated by natives, a port of export. Since his return to this country Mr. Hedden's advice has frequently been taken by appraisers and examiners, and under Mr. Ketchum's regime he frequently acted as merchant appraiser.

Mr. Hedden therefore assumes the office of Collector with the benefit of a long experience as to the requirements of the position. He is a vice president of the North River Bank and a director in the Niagara Fire and other insurance companies. His father studied law under Alexander Hamilton, and was the representative of New York upon the location of the opening of the Erie canal. Although an anti-Tammany Democrat, Mr. Hedden is not an active or prominent politician. In fact he is neither known to politicians nor in political circles. It is said his appointment was recommended by Ex Mayor Cooper, General John H. Woodard, John C. Chase, Bates, Reed & Cooley, J. T. Low, and others. The significance of Hedden's appointment lies in his unwavering Democracy, unimpeachable record as a solid merchant, high standing as an expert in Custom House law and practice, and his industry and lifelong residence in the city of New York.

HON. E. O. GRAVES.

The New Chief of the Bureau of Engraving and Printing.

Mr. Graves, who has recently entered upon his duties as Chief of the Bureau of Engraving and Printing, is a native of Harkimer County, New York. He is

a son of Judge Graves, and about forty-five years of age. He was educated at Hobart College, and although he did not graduate there, the institution subsequently conferred upon him the degree of Master of Arts. He is one of the lecturers in the classes of Trinity College as an authority on the "Science of Administration," and has delivered a series of lectures on this subject.

Mr. Graves entered the Treasury Department in 1882 as a clerk in the lowest grade, and has gradually worked his way up from a fourth to a first class clerkship; from the Chief of the Redemption Agency to Assistant United States Treasurer, and from the latter to his present position, a \$1,000 promotion, his salary in his new office being \$4,500, by Act of Congress.

Mr. Graves has been repeatedly called upon to investigate different subjects connected with the service in the Treasury Department. He has several times examined the office of Assistant Treasurer in New York; in 1878 he examined and reported upon the condition of the Sinking Fund of the District of Columbia, and in 1881 he prepared for Secretary William H. Taft a history of the Civil Service experiment, when Secretary Folger wanted information to enable him to present specific estimates for appropriations for Customs Service. Mr. Graves opposed the majority report of Messrs. James Trevelyan and Blackett, by a minority report of his own, and with wise suggestions. His report on the management and efficiency for the collection of the Bureau of Engraving and Printing was very unfavorable to it, and attracted much attention in and outside of Government circles. "The Government and extraneous circles," he said, "which have marked its management, and the scandals to which it has given rise, furnish the strongest possible argument against it." The report suggested that a closer supervision over the management might go far to reform its reputation, and it produced a most salutary effect. Personally, Mr. Graves is a man of prepossessing appearance and genial manners, and popular with all with whom he is brought into business or social contact.

A BAPTIST deacon is responsible for the following: "The weakest point in our church machinery is the lack of some plan for relieving the churches of pastors who refuse to resign after it is manifest to all interested persons that a change is desirable. As it now is, pastors often hold on simply from the fear that they can get no other place should they resign. All other denominations have some safety valve just here; but the Baptists have none. The pastor has to die or there must be a blow-up in order to get rid of him."

The Farmer's Plunder.

At the county fair he went to the man in charge of the animal department and said: "Enter me also for a jackass."

The man looked at him and concluded in a moment that he was one of the sort of men who, when sick, take everything except Brown's Iron Bitters, and then wonder why they don't get well.

The iron in this medicine is a wonderful preparation, the only iron preparation, in fact, that can be taken without injury to teeth or stomach. The cure of rheumatism, dyspepsia, and liver complaint by using Brown's Iron Bitters are numbered by thousands.
